

V6 Vertical Windlass

Now big boats can enjoy all the benefits of vertical windlasses. The latest addition to the V-Series, the V6 and V8 windlasses set a new standard.

Just like their smaller counterparts, both models offer the ultimate strength and control at the touch of a button and the deck unit is made of 100% 316 stainless steel.

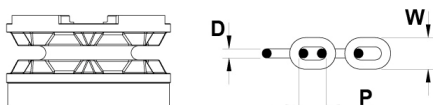

Features

- All stainless steel deck unit
- Powered and manual chain release
- W.A.R.P. Drum (Wear and Abrasion Resistant Pattern)
- Cone Clutch for smooth, easy control
- Left- and right-hand versions
- Available in 24v and Hydraulic power options
- Remote chain pipe version

Model	Max. Chain (mm)	Voltage (V)	Motor Watts (W)	Typical max pull (Kg)	Working load (Kg)	Max line speed (m/min)	Normal current draw (A)	Circuit breaker (A)	Weight* (Kg)
V6 24V	14 mm	24	2000	1818	450	18	90	150	63
V6 Hyd	14 mm			1600	400				52

* Weight = windlass + drive
